Summary

Results-driven **Full-Stack Developer** with expertise in building scalable web and mobile applications using **Spring Boot, React, and React Native**. Proven experience in developing high-performance platforms like **CraveCart**, an e-commerce solution, and **Daily Spend**, a cross-platform mobile application for personal finance management. Strong proficiency in architecting secure systems with **NestJS, JWT, and 2FA**, while designing intuitive, user-centric interfaces using **Next.js and Tailwind CSS**. Dedicated to delivering enterprise-grade software solutions while gaining industry experience at **RedCode Solution**.

Experience

RedCode Solutions

Ambalangoda

Full-Stack Developer Intern

2025-10 – Present

Actively contributing to the development of enterprise-grade web applications by leveraging a modern tech stack including **Spring Boot, NestJS, and React**. Focused on architecting scalable backend services and implementing robust security protocols such as **JWT Authentication and Two-Factor Authentication (2FA)** to ensure data integrity.

Key responsibilities include developing decoupled frontend interfaces using **React and Vue.js**, managing complex database schemas with **MongoDB and MySQL**, and designing professional, high-contrast dashboards using **Tailwind CSS**. Collaborative experience in a professional Agile environment, ensuring the delivery of high-quality code and optimized system performance.

Projects

CraveCart – Enterprise E-commerce Platform

Technologies: React.js, Spring Boot, MySQL, Tailwind CSS

- **Architected a decoupled e-commerce platform** utilizing **Spring Boot** and **Next.js**, delivering high scalability and rapid initial page load times.
- **Successfully launched the live application**, managing production environments across **Vercel (Frontend)** and **Render (Backend)** with continuous deployment practices.
- **Developed robust, secure RESTful APIs** for product cataloging and transaction handling, paired with a responsive, highly accessible UI built via **Tailwind CSS**.
- **Ensured seamless client-server communication** in production, handling persistent states and optimized data fetching between separate hosting providers.

Daily Spend (Mobile Application)

Technologies: React Native, Firebase Auth, Cloud Firestore, JavaScript (ES6+)

- Developed a cross-platform mobile application using **React Native** to help users monitor and manage daily financial transactions.
- Integrated **Firebase Authentication** for secure user onboarding and **Cloud Firestore** for real-time NoSQL data synchronization.
- Engineered full **CRUD functionality** for expense logging, allowing users to categorize and update their financial history dynamically.
- Optimized mobile UI components for smooth navigation and low-latency data retrieval, ensuring a seamless user experience across devices.

C-MOBILES – Full-Stack E-commerce Project

Technologies: MongoDB, Express.js, React, Node.js (MERN Stack)

- Architected a comprehensive web-based e-commerce solution using the **MERN stack**, focusing on end-to-end product management.
- Designed and managed a non-relational database schema using **MongoDB** to handle diverse product categories and user profiles.
- Built a custom backend with **Node.js and Express.js**, implementing secure routes and controller logic for data processing.
- Developed an interactive admin dashboard for inventory management and real-time order status tracking.

Skills

Web Development

React.js, Next.js, Java Spring Boot, NestJS, Tailwind CSS, laravel, php, Vue.js

Mobile Development

React Native, Firestore, Mobile UI/UX, Firebase Auth

Database & Backend Security

MySQL, MongoDB, JWT, 2FA, REST API

Education

Institute of Software Engineering (IJSE)

Graduate Diploma in Software Engineering

Software Engineering

Panadura / Colombo, Sri Lanka

Completed a comprehensive program focused on **Full-Stack Development, Java Enterprise Architecture (Spring Boot), and Database Management**. Gained hands-on experience in **Rapid Application Development (RAD)** and modern software engineering principles

Interests

Technology & Innovation

Open Source, Tech Blogging, AI & Machine Learning, Cloud Computing

Sports & Wellness

Cricket, Fitness Training, Team Sports

Certifications

Innovesta `24

08/03/2024

Institute of Software Engineering (IJSE)

Participated as a member of **Team Enigma** to design and present an innovative software solution. Focused on collaborative problem-solving and technical excellence within a competitive engineering environment hosted by **IJSE**.
